ENCHANTED FOREST

WHAT TO EXPECT

Throughout the school year I plan on teaching your children many different things including the state standards, expectations on good behaviors, random fun knowledge such as “a woodpecker’s tongue wraps around its brain to protect it from getting head trauma when pecking wood”. These are just some of the things your students can learn in my class this year.

ABOUT ME

I am going into my fourth year of teaching, I have taught art, math, science, nature, and garden in my three years of teaching. I have 3 dogs, 2 tortoises, 1 rabbit, some chickens, turkeys, ducks, and pigeons. I love to learn and explore nature and learn about what plants can help us in what ways, (the ways of apothecary and herbalism) and I love art, culture, fables and fantasies of all sorts. Exploration and Learning are my passions. I do love anime and playing Pokemon on the side as well as playing video games!

I am excited to start this new year with you all! I would love to push our students to read at home this year for at least 10-20 minutes a day when possible. If a book is needed we have a book series room where books can be checked out and borrowed! I would also like to ask about any volunteers for snack donations, if interested please feel free to reach out to me via class Dojo!
